Senator Harreld Says Terms Would Carry Millions in City Property.

POWER ONLY FOR UPKEEP

100 Years Too Long, Anyway, for Lease of Muscle Shoals

Henry Ford's offer for the Muscle Shoals projects was declared "unconscionable" by Senator Harreld of Ok-Senate agriculture committee, in a letter yesterday to Gray Silver of the American Farm Bureau Federa-

conscionable contract so far as the people of the United States are concerned, and I cannot favor it," said Senator Harreld. "I am not averse to leasing this Power to Mr. Ford, but cannot favor leasing it under such terms as these (in the Ford offer) Especially do I oppose the making of such a lease for 100 years."

Additional Gain to Ford. Senator Harreld said that "in a nutshell" Mr. Ford's proposal amounted to turning over to the Detroit manufacturer the Muscle Shoals property plus scores of residences and town prop-erty worth many millions of dollars without any cost whatever to Mr. Ford." Senator Harreld said that Mr. Ford offered \$5,000,000 for property

Ford offered \$5,000,000 for property worth more than that sum, excluding the city property.

"None of the various propositions before the committee were satisfactory to me, hence I did not vote for any of them," the senator said. "My position is that the government must finish this dam under any proposition that has been made at its own expense. It will require three years to do so, and I feel that within that period we can make a much better contract than any of those proposed." Regarding the offer made by Mr. Ford, Senator Harreld said, "For his 160 years' use of the two dams, which the government will build, he proposes to pay 4 per cent of the amounts invested in finishing the dams and what, in my judgment, is only a part what, in my judgment, is only a part of the actual cost of upkeep of the

"In fact, I think it will take all that he would pay to the government in cash under his contract to keep up repairs on the two dams." he continued. "Thus he will practically get the power generated by these dams for 100 years by paying for the upkeep. "It is true that he agreed to use the capacity of plant No. 2 in the production of fertilizer, which he will e would pay to the government in "Thus he will practically get the power generated by these dams for 100 years by paying for the upkeep.
"It is true that he agreed to use the capacity of plant No. 2 in the production of fertilizer, which he will sell for 8 per cent profit, and will only charge for the power in making thereof the price equal to the cheapest power available. Virtually, then, he is getting this immense power generated est power available. Virtually, then, he is getting this immense power generated by the two dams for an agreement on his part to keep No. 2 running in the making of fertilizers so long as he can make it, and sell it in the markets at 8 per cent profit, which may be one year or five years or twenty years. There are many states in the Union that will use more fertilizer than he proposes to manufacture under the terms of this contract. He would have absolutely free, under the terms of this contract, the entire power of the two Muscle Shoals dams, built at the expense of the government, for the expense of the government, for 100 years, for practically what it will cost to keep it up."

#### JOBS FOR FIREMEN.

Examination August 23 to Fill Vacancies in D. C. Department. The Civil Service Commission states

the District of Columbia are depart-ment will be held again on August 23, the examination of August 9 not having produced a sufficient number of eligibles.

Honorably discharged soldiers, sail-

Honorably discharged soldiers, sallors and marines are given preference in appointment. A former service man becomes eligible with a rating of 65 per cent, while others must attain a rating of at least 70 per cent, and veterans are certified ahead of non-preference eligibles regardless of the ratings of the latter.

The pay scale for these positions and the working conditions are such that the fire department offers desirable employment to men who are physically qualified.

Full information and application blanks may be obtained at the office of the Civil Service Commission, 1724 F street northwest.
